CAREER OBJECTIVE

Motivated BCA final year student with hands-on experience in Python, MySQL and web development. Completed industrial training in AI & ML using Python and built projects like Student Management System and Digital Canteen Management System. Seeking an entry-level Software Developer / AI-ML Intern role to apply my programming and problem-solving skills while learning in a professional environment.

EDUCATION

Swami Vivekananda Institute of Modern Studies

West Bengal, India

Bachelor of Computer Applications (BCA)

Aug 2023 – Expected May 2027

Current SGPA: 8.41/10.0(6th sem - Pursuing)

Sodepur Sushil Krishna Sikshayatan For Girls(H.S)

West Bengal, India

Higher Secondary (Class XII) — 77%

Jan 2021 – March 2023

TECHNICAL SKILLS

- **Programming:** C, Java, Python
- **Web Development:** HTML, CSS
- **Database:** MySQL
- **AI & Machine Learning:** ML Algorithms, Data Handling, Model Building
- **Version Control:** Git, GitHub
- **Other:** Computer Networking Fundamentals, MS Word, Excel, PowerPoint

CERTIFICATIONS & TRAINING

Industrial Training in AI with Machine Learning using Python

Euphoria GenX | September – November 2025

- Completed industrial training in Artificial Intelligence and Machine Learning using Python.
- Learned Python programming, machine learning algorithms, data handling, and model building.
- Successfully completed the training and received a certificate of completion.

Git & GitHub Training

ExcelR | August 2026

- Completed practical training covering Git fundamentals, repositories, branches, commits and GitHub workflows.
- Learned version control, collaboration and project hosting using GitHub.
- Successfully deployed portfolio website using GitHub Pages.

PROJECTS

Digital Canteen Management System

PHP Minor Project

Technologies: PHP, HTML, CSS, MySQL

GitHub: github.com/keyadas538-design/Digital_Canteen_System

- Developed a web-based digital canteen management system for browsing food items and placing food orders online.
- Implemented QR-code-based payment functionality for convenient online payments.
- Developed features for adding and editing food menu items.
- Implemented order history to view previous customer orders.
- Used MySQL database to store and manage food and order information.

Student Management System

Python Minor Project

Technologies: Python, Streamlit, Pandas, SQLite, SQL

GitHub: github.com/keyadas538-design/student-management-app

- Developed a Student Management System for managing student records, marks and academic performance.
- Implemented CRUD operations to add, view, update and delete student data and marks using SQLite database.
- Built an interactive UI with Streamlit and implemented automatic grade and SGPA calculation features.

CORE STRENGTHS

- Problem-Solving & Analytical Thinking
- Quick Learner
- Self-Motivated
- Communication & Teamwork
- Adaptability
- Positive Attitude
- Willingness to Learn New Technologies
